6.3. PRODUCTS

We have a comprehensive and diverse portfolio of credit card products that we continuously adapt to the evolving needs of our cardholders and changing industry dynamics.

Our credit card portfolio caters to individual cardholders and corporate clients, and includes lifestyle, rewards, travel and fuel, shopping, banking partnership cards and corporate credit cards. We offer four primary SBI-branded credit cards: Simply Save, Simply Click, Prime and Elite, each catering to a varying set of cardholder needs. In addition, we are also the largest co-brand credit card issuer in India according to the CRISIL Report, and we offer a wide portfolio of co-brand credit cards in partnership with several major players in the travel, fuel, fashion, healthcare and mobility industries, including Air India, Apollo Hospitals, BPCL, Etihad Guest, FBB, the IRCTC, OLA Money, Landmark and Yatra among others.

Our credit cards portfolio is tailored to meet the particular needs of our cardholders across all major cardholder segments, from the “premium” cardholder category to the “affluent”, “mass affluent”, “mass” and “new to credit” categories. By catering to specialized cardholder needs, we are able to offer customized benefits, such as reward programs and discount programs, that are tailored for each target demographic and thus offer them a higher value proposition. For example, we offer a co-brand credit card that is specifically targeted at medical doctors, which offers specialized medical professional liability insurance to its cardholders. In addition, we also offer highly customizable corporate cards to our corporate clients that can be tailored for specific types of purchases and functionalities. In our experience, our ability to provide such specialized credit card products across several cardholder segments allows us to deliver a more compelling value proposition, tap into several specialized consumer segments and strengthen our long-term relationships with our cardholders.

Brief snapshot of the products portfolio offered to its card holders is as follows:

6.6. PAN INDIA REACH & DISTRIBUTION

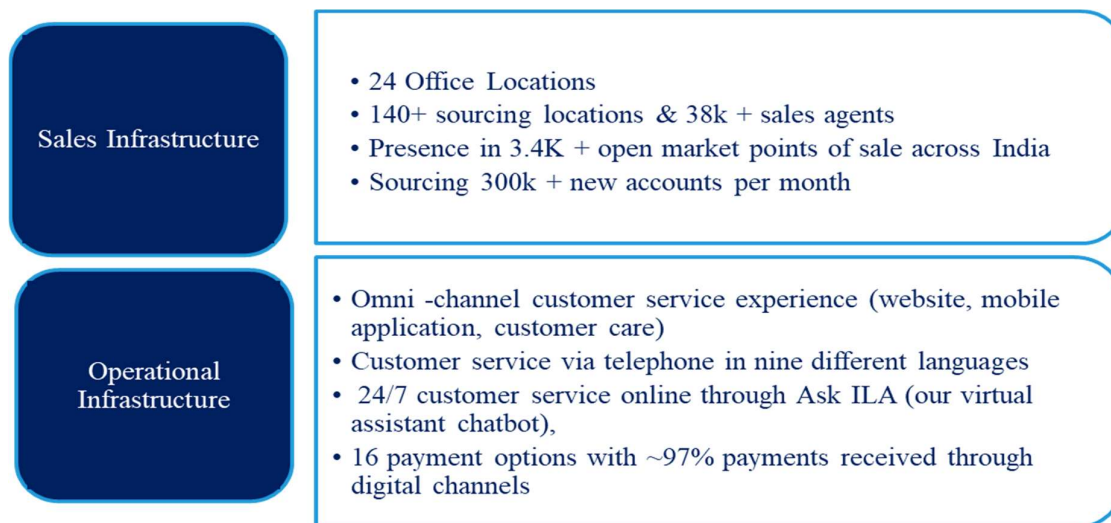

An effective distribution channel can be source of strategic advantage for the companies, specially catering to the needs of retail segment. With this philosophy in mind, SBICPSL has effectively used the traditional and the digital channels not only to penetrate deeper into the market but also to provide quality service to earn loyalty. The Company has emphasized on the distribution channels to address the ever-changing needs to each group of the credit card holders. Company also boasts of a distribution network that caters fully to customers across segments:

1. A widespread branch network for those who prefer brick and mortar.
2. Digital channels for youth who are tech savvy and do not have time to visit branches
3. A mix of physical and digital channels for the affluent and upwardly mobile who generally prefer to self-serve but also have a need for personalized service.
4. Web service platform for corporate clients

The primary sourcing channels used by SBICPSL for customer acquisition are as follows:

Channel	Strategy
SBI Branches	<ul style="list-style-type: none"> • Preapproved program on SBI customer base • SBI branch network
Direct to customer	<ul style="list-style-type: none"> • Presence in malls, stores, airports and all other high traffic locations • Large corporates • Tele calling on acquired databases
Digital & Alternate Channel	<ul style="list-style-type: none"> • Customers acquired through digital marketing • Customers acquired through SBI's digital assets
Co-brand partners	<ul style="list-style-type: none"> • Walk-in through partner stores • Tele calling on leads generated by partners

A mix of physical and digital infrastructure has led to seamless onboarding and servicing of the credit card holders at SBICPSL. The Company values each class of customers and is committed to “**Make Life Simple**” for all its cardholders by investing in technologies and processes to create value for all stakeholders. Following is the snapshot of Company's infrastructure:

6.7. DIGITISATION

We are focused on investing in our digital and mobile capabilities, bringing to market new features, channels and experiences for our cardholders and enhancing our existing digital design and user experience. Our approach continues to be cardholder and partner-centric to reach our cardholders in unique ways at home, in store, online or wherever they prefer.

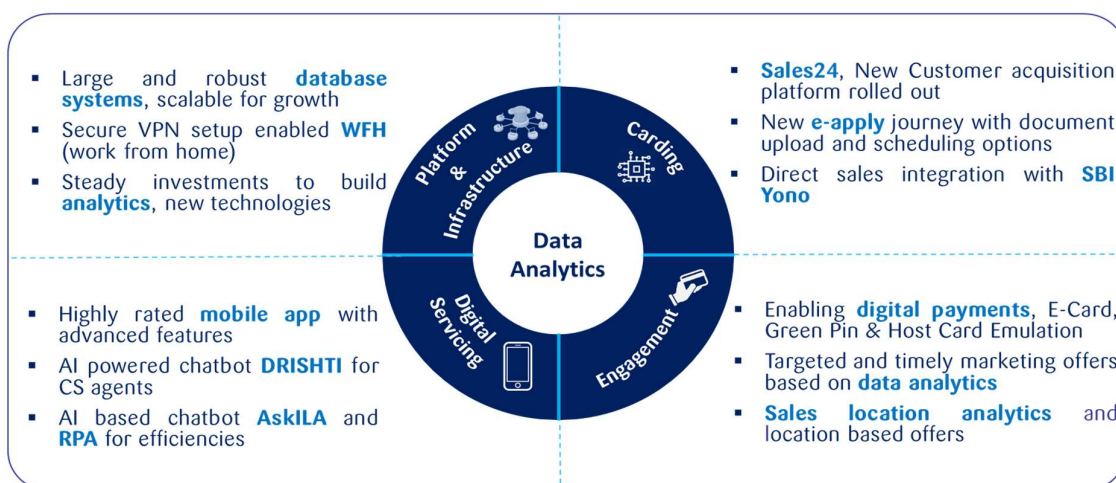

The Company's website provides a platform for prospective customers to apply for a credit card online. We also use our website to provide an effective self-service channel our cardholders, to cross-sell our credit cards and other value-added services and to promote offers to our existing cardholders.

Our mobile application has the following features: (i) contactless payment at NFC enabled point-of-sale machines; (ii) Bharat QR-based payments; (iii) instant self-service option with ILA, our virtual assistant chatbot; (iv) rewards points redemption; (v) Multiple self-service options such as viewing card statements, raising a transaction dispute and fraud reporting; and (vi) promotion of cross-sell products

Some of our key digital initiatives include:

- we have developed our own proprietary instant e-credit card which enables us to immediately send an e-card to our new cardholders, generate an electronic PIN and conduct on-boarding processes. This enables cardholders to perform online transactions without waiting for the physical card delivery. We are focused on increasing such digital card issuances in the near future.
- we have invested significant resources in our digitally integrated Sales24 customer acquisition platform, which has digitized our credit card application process at the point of sale and is fully integrated with our customer onboarding and credit decision platform. This has enhanced our ability to digitally carry out our credit process and provide a real time in-principle approval at the point of sale.
- On an average ~92% of our statements in fiscal 2020 and ~93% of our statements in fiscal 2021 were issued as e-statements.
- On an average ~97% of our bill payments in fiscal 2020 and ~98% of our bill payments in fiscal 2021 were handled as digital payments.
- Project Turbine (Data Lake) – an end to end platform for data analytics and facilitating the provision of real-time, location based customized offers for our cardholders
- In fiscal 2018, we launched our new Bharat QR payments system, which processes a large number of electronic transactions at various merchants each month
- We have also significantly expanded the reach of Ask ILA, our chatbot, across our digital platforms and deepened its knowledge and ability to respond to the questions that our cardholders may ask and perform certain tasks that they may require.

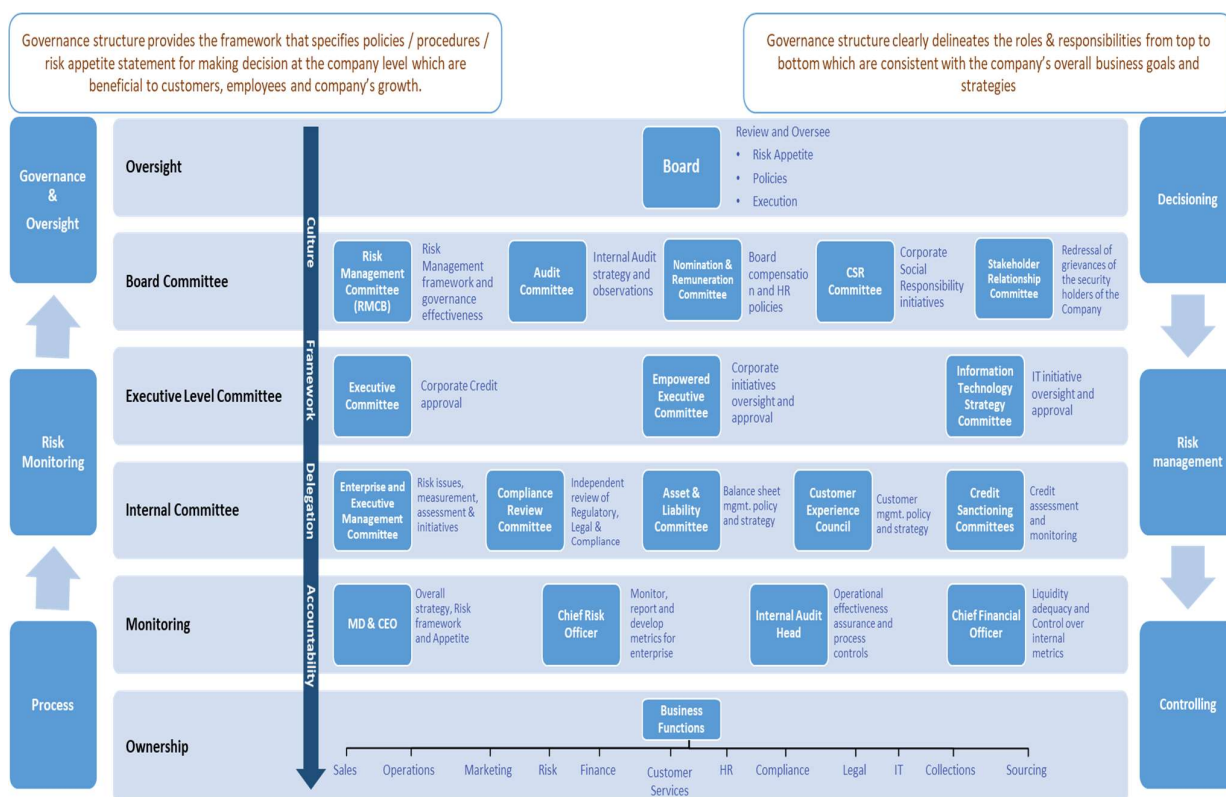

Key Digital Initiatives

6.8. GOOD CORPORATE GOVERNANCE

The Company imbibes its good corporate governance culture from its promoter – State Bank of India. The Board along with its various committees is responsible for overall corporate governance. The Board through its various committees plays a vital role in the matters relating to policy formulation, implementation and strategic issues which are crucial for the organization's overall growth and development and achievement of its strategic and business goals.

Board level committees are Audit Committee, Risk Management Committee, Nomination & Remuneration Committee, Stakeholders Relationship Committee and Corporate Social Responsibility Committee which provide direction and guidance to the Company's Leadership Team and further directs, supervises as well as reviews the Company's performance on a periodic basis.

6.9. RISK MANAGEMENT

Our risk management framework is a collection of day-to-day tools, processes and methodologies that support us in defining risk appetite, documenting the governance of risk and identifying risk processes and methodologies to assess, monitor and control the risks.

Our Risk Management policy is governed and approved by the Board. We have an Enterprise Risk Management team that is responsible for monitoring approved risk limits and escalation triggers to ensure that our business is operating within the approved risk appetite. Risk limits are monitored and reported on to various risk sub-committees, the Risk Committee and our Board of Directors, as appropriate. Through ongoing monitoring of risk exposures, management seeks to be able to identify appropriate risk response and mitigation strategies in order to react dynamically to changing conditions. Further, the Enterprise Risk Management team liaises with sales and operations functions to ensure that sourcing policies are followed as expected. Early identification indicators, fraud reviews and approval funnel performance are integral part of this risk identification process. Based on performance review of applications and booked accounts, corrective actions are taken in high risk segments.

Risk Measurement

We have a robust and varied risk measurement system which spans across the credit card life cycle. We have a dedicated Risk analytics team to develop machine learning based models as well as leverage state-of-the-art tools to deliver data, information and insights, as predictors of risk and volatility. These include scores (internal and external), change in cardholder behavior with other institutions as reported by the bureaus, score migration to identify any deteriorating trend, delinquency and flows at various stages. We also do a segment measurement of risks to align with benchmarks and targeted policy and process changes are made to contain the risk. We keep refining the risk parameters to align with changing business environment and cardholder behavior. We measure the risk both at a cross section and a time series view of the portfolio along with trended bureau data to identify any build of stress. Risk is also measured across processes with respect to alignment with defined policies and guidelines.

Risk Management

Risk management processes and methodologies are central to our risk management framework, allowing for the identification, measurement, monitoring and control of risk.

We have specific risk triggers in place, and we monitor our cardholder's behavior and credit scores proactively using available sources of information (including transaction patterns, credit bureau data and cardholder footprint captured across our systems) on a nearly real time basis. These processes and methodologies include qualitative and quantitative measures.

Risk Reporting

Our ongoing risk monitoring processes are periodically compiled onto our Portfolio Risk Review Report, which covers sourcing, portfolio performance, delinquency, frauds and audits. Our Portfolio Risk Review Report are presented to our management team, board of directors and the RBI as per regulatory requirements. In addition, the status of each account is reported to all four of our credit bureaus. Internal reporting tracks the performance of various sourcing segments by count and amount delinquency and suitable policy changes are made to address them.

Risk and Controls Governance

Our board of directors is ultimately accountable for our risk management and oversight functions. The Board considers the appropriateness of the risk management framework in line with our risk appetite and our strategy. The Enterprise Risk Management Committee of our board of directors reviews and discusses the performance of the risk appetite triggers on monthly basis.

Fraud Prevention

We regularly monitor our cardholders' accounts to help prevent, detect, investigate and resolve fraud. Our fraud prevention processes are designed to protect the security of cards, applications and accounts in a manner consistent with our cardholders' needs to easily acquire and use our products. Prevention systems monitor the authorization of application information, verification of cardholder identity, sales, processing of convenience and balance transfer checks, and electronic transactions. Each card transaction is subject to screening, authorization and approval through externally developed and proprietary point-of-sale decision systems. We use a variety of techniques that help identify and halt fraudulent transactions, including adaptive models, rules-based decision-making logic, report analysis, data integrity checks and manual account reviews. We manage accounts identified by the fraud detection system through technology that integrates fraud prevention and customer service. Our strategies are subject to regular review and enhancement to enable us to respond quickly to changing conditions as well as to protect our cardholders and our business from emerging fraud activity.

Our fraud loss prevention program, which consist of neural network and internally developed dynamic rules, attempts to detect transactions that are unusual or inconsistent with prior usage history and calls are made to the relevant cardholders to confirm their purchases. The parameters and number of these rules are periodically reviewed as per emerging fraud trends. We have an anti-fraud team which is dedicated to investigating fraud losses. Fault may also lie with delivery companies that fail to deliver credit cards to the right person. In such instances, we attempt to recover fraud losses from the responsible party. To prevent misuse of a card and minimize

credit risk, our fraud management system will automatically suspend the use of a card based on certain pre-set triggers and parameters, and we also have an automated card unblocking process to increase cardholder convenience.

Our achievements in fraud management and prevention have earned us multiple national and international awards, such as the Champion Security Award- South East Asia for Excellence in Fraud Risk Management from Visa received for years 2019, 2016 and the Visa Global Service Quality Award for the years 2018, and 2015.

Additional steps taken during Covid-19 pandemic:

Company has been focusing on business growth since the first lockdown and has been continuously scaling up business operations since then. The company has undertaken a detailed scenario analysis of the unprecedented economic situation caused by the COVID crisis and have developed strategies to manage its business impact. This includes entire spectrum of its business model encompassing customer acquisition, generating spends, portfolio monitoring and collections, customer servicing, cost optimization etc.

Risk is constantly monitoring the customer performance and have taken steps to identify higher risk and vulnerable segments and limiting Company's exposures. Company has also tightened its cross-sell criterion and working on refining credit underwriting and revamped the collections segmentation in light of social distancing norms.

On Information security front, Company is cognizant of heightened risk of cyber-attacks in these times especially when most of the workforce working from home. The Security Operation Centre continues to monitor all IT systems and all advisories from CERT-IN, RBI, SBI, our own threat intel partners have been implemented.

Internal Audit Framework

Our internal audit function reports to the Audit Committee of our board of directors on the effectiveness of our risk management and regulatory compliance functions. Our internal audit team works together with our external auditors in an effort to ensure that internal audits are adequately conducted across our various different departments and functions. The results of our internal audit are presented to the Audit Committee of our board of directors on quarterly basis.

We are a licensed systematically important non-deposit taking non-banking financial company. Accordingly, we are subject to annual stringent and robust inspection by the RBI. We are also subject to audit by the Comptroller and Auditor General of India ("CAG"). Following the inspection, the RBI and the CAG will provide us with their inspection reports which may include observations and recommendations, and they will monitor our compliance with any such recommendations. These RBI and CAG reports are presented in the Audit Committee of our board of directors and followed up to ensure that agreed actions have been carried out.

Data Security

We have adopted a holistic cyber security framework with a comprehensive information systems security and cyber security policy and standards based on industry best practices with compliance to regulatory guidelines. Our cyber security framework is designed to protect the confidentiality, integrity and availability of information and information systems from unauthorized access, use, disclosure, disruption, modification or destruction.

Our cybersecurity framework consists of controls designed to identify, protect, detect, respond and recover from information and cyber security incidents. The framework defines risks and associated controls which are embedded in our processes and technology. Those controls are measured and monitored by a combination of subject matter experts and a security operations center with our integrated cyber detection, response and recovery capabilities.

SECTION VIII

DISCLOSURES WITH REGARD TO INTEREST OF DIRECTORS, LITIGATION, ETC.

8.1. INTERESTS OF OUR DIRECTORS

Except as otherwise stated in “Financial Statements – Related Party Transactions” our Company has not entered into any contract, agreements and arrangement during the three financial years preceding the date of this Private Placement Offer Letter in which the directors are interested directly or indirectly, and no payments have been made to them in respect of such contracts or agreements.

All directors, including independent director, may be deemed to be interested to the extent of fees, if any, payable to them for attending meetings of the Board or a committee thereof, as well as to the extent of other remuneration and reimbursement of expenses payable to them and in view of their employment/nomination by SBI/Investor Shareholder Director, if any and in view of their shareholding in the Company, if any

8.2. INTEREST OF DIRECTORS, KEY MANAGERIAL PERSONS/PROMOTERS IN THE OFFER

There is no financial or other material interest of the directors, promoters or key managerial personnel in the offer. Company has availed credit facilities from SBI in the normal course of business. The present issue of private placement of debenture will be uploaded on the EBP platform, and hence all QIBs including SBI can participate in the bidding process. The Debentures allotment will be made to the successful participants as per EBP. There are no contributions which are being made by the directors either as part of the offer or separately in furtherance of such objects.

8.3. DETAILS OF LITIGATION OR LEGAL ACTION PENDING OR TAKEN BY ANY MINISTRY OR DEPARTMENT OF THE GOVERNMENT OR A STATUTORY AUTHORITY AGAINST PROMOTER OF THE OFFEROR COMPANY DURING LAST 3 YEARS IMMEDIATELY PRECEDING THE YEAR OF ISSUE AND DIRECTONS ISSUED THEREOF

Our promoter, State Bank of India is involved in legal proceedings including taxation related proceedings before various courts (civil and criminal) and other forums in the ordinary course of business and may have received directions in this regard. The details of contingent liability with respect to claims against the State Bank of India, which is not acknowledged as debt, however as disclosed by State Bank of India in their audited balance sheets for last three years is as under:

Contingent Liability (In Cr)	31.03.20	31.03.19	31.03.18
Claims against the Bank not acknowledged as debts	71,642	43,358	35,153

Regulatory matters against State Bank of Travancore which has merged with the State Bank of India (“SBT”):

Certain complaints have been filed by Assistant Director, Directorate of Enforcement, Ministry of Finance, Department of Revenue under Section 16(3) of FEMA before the Special Director, Directorate of Enforcement, Ministry of Finance, Department of Revenue (the “ED”) in relation to inter alia, unauthorized remitting amounts equivalent to ₹ 2,430 million, ₹ 470 million, ₹ 420 million and ₹ 880 million for the Board of Control for Cricket in India (“BCCI”) in violation of the provisions of FEMA including Section 10(4), 10(5) and 11(1) of FEMA and the rules and circulars issued thereunder. It was alleged that SBT did not obtain adequate information / declarations to reasonably satisfy itself, inter alia, (i) about the genuineness of foreign exchange transactions and (ii) that the said transactions entered into by the BCCI do not involve any contravention or evasion of the provisions of FEMA. The ED vide its order dated May 31, 2018 imposed a penalty of approximately ₹ 70 million on SBT. The Appellate Tribunal, FEMA at New Delhi (“Appellate Tribunal”), waived off the precondition of depositing the penalty amount of approximately ₹ 70 million vide its order dated May 17, 2019. The matter is currently pending before the Appellate Tribunal

In addition to the aforementioned, SBI from time to time, in its normal course of business and due to the nature of the business it undertakes and its expansive area of operation, may have received notices from certain regulatory or statutory authorities, inter alia, seeking clarification and information. SBI does not believe that any action taken or initiated, has not and will not result in any material action against SBI.

The net amount involved in these frauds was Rs 3.90 crores in 2019-20, Rs 3.16 crores in 2018-19 and Rs 3.48 crores in 2017-18. The Company has internal Fraud Control Unit to monitor and prevent frauds.

SECTION IX MANAGEMENT'S PERCEPTION OF RISK FACTORS

MANAGEMENT PERCEPTION OF RISK FACTOR

The Investor should carefully consider all the information in this private placement offer letter, including the risks and uncertainties described below before making an investment in the Debentures. The risks and uncertainties described in this section are not the only risks that Company currently faces. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business, prospects, results of operations and financial condition.

RISK RELATING TO BUSINESS OR INDUSTRY

1. *We use the “SBI” brand of our Promoter and are exposed to the risk that the “SBI” brand may be affected by events beyond our control and that our Promoter may prevent us from using it in the future.*

We do not own the “SBI” name, brand or trademark. The “SBI” name, brand and trademark, as well as the associated logo as displayed in our SBI Card brand are owned by our Promoter. We currently use the “SBI” logo pursuant to a license agreement entered into between us and our Promoter, under which our Promoter has granted to us the non-exclusive right to use the name, brand and trademark “SBI” and the associated logo in consideration for our payment of royalty fees to our Promoter. Under this license agreement, our Promoter has the right to terminate the license on occurrence of certain events, which include, among other things, our Promoter’s shareholding in us falling below 26.00% of our outstanding equity share capital, if we undergo a change of control event pursuant to any change occurring in the composition of our board of directors or our shareholding pattern, or if we fail to pay royalty fees to our Promoter. There can be no assurance that our Promoter will not exercise its rights to terminate this license in the event that its shareholding falls below 26.00%, or for other reasons. Should this license be terminated, we would be required to change our name and brand, which could require us to expend significant resources to establish new branding and name recognition in the market, as well as undertake efforts to rebrand our branches and our digital presence, which could result in a material adverse effect on our reputation, business, financial condition and results of operations.

In addition, there can be no assurance that our Promoter’s “SBI” brand, which we believe is a well-recognized brand in India due to its long presence in the Indian financial services markets, will not be adversely affected in the future by events or actions that are beyond our control, including cardholder complaints, developments in other businesses that use the “SBI” brand or adverse publicity. Any damage to the “SBI” brand, if not immediately and sufficiently remedied, could have an adverse effect on our business, financial condition and results of operations.

2. *We derive substantial benefits from our existing relationship with our Promoter, and a loss or reduction in the level of support we receive from our Promoter could adversely affect us.*

Our Promoter, SBI, was India’s largest commercial bank in terms of deposits, advances and number of branches as of March 31, 2020. We have derived, and continue to derive, substantial benefits from our relationship with our Promoter. Our credit cards portfolio consists primarily of SBI-branded credit cards, and we take advantage of our Promoter’s large branch and customer networks in order to market our credit cards. Our Promoter is our largest customer referral partner, and our referral arrangements with SBI allow us to market our products and services to SBI customers by utilizing our Promoter’s vast branch network. For example, our Promoter provides space for our outsourced sales workforce to be present at select SBI branches, and we also carry out joint marketing efforts with our Promoter.

In fiscals 2021, 2020 and 2019 new accounts acquired from our Promoter’s customer base accounted for 57.3%, 50% and 55% respectively, of our total new accounts. Our Promoter has also granted us a non-exclusive license to use the “SBI” brand and trademark. If our rights to the “SBI” brand and trademark are discontinued for any reason, our reputation, business, financial condition, results of operations and prospects could be adversely affected. In the past, in the ordinary course of business and in its capacity as a commercial banking institution, our Promoter has extended working capital loans and non-convertible debentures to us. Our Promoter has contributed several members of our key management personnel, and we have also leveraged our Promoter’s existing infrastructure and management expertise

to support some of our business functions such as IT infrastructure, compliance and risk management, human resources and support for certain information systems. We also benefit from certain pricing advantages derived from our Promoter's size and scale in negotiating third-party vendor contracts, where we may in certain instances obtain more attractive group rate discounts than we could have obtained otherwise. Finally, our Promoter is also the sponsor bank for one of our payment network agreements, and withdrawal of our Promoter's support from this arrangement and our inability to find another sponsor bank, may result in a disruption of that payment network agreement.

Our arrangements with our Promoter are not exclusive. As a result, our Promoter could enter into similar or competing relationships with third parties, including our competitors. In addition, the agreements governing our arrangements with our Promoter allow our Promoter to terminate such agreements upon notice without cause. The termination of any of such arrangements could have a material adverse effect on our results of operations and financial condition. Our Promoter is selling a partial equity stake in us through this offering. Although our Promoter would require the RBI's approval to relinquish control in us, we cannot assure you that our Promoter would not divest additional equity stakes in us in the future. Therefore, we cannot assure you that we will continue to enjoy the same level of support from our Promoter in the future, which could significantly impact our business model and materially adversely affect us. This could also hamper certain of our decision-making processes and could result in sudden or unexpected changes in our management, corporate policy and strategic direction, each of which could adversely affect us.

3. ***Substantially all of our credit card portfolio is unsupported by any collateral that could help ensure repayment, and in the event of non-payment by a cardholder of their credit card receivables, we may be unable to collect the unpaid balance.***

We extend revolving unsecured credit to our cardholders as part of our business operations. As of March 31, 2018, 2019, 2020 and September 30, 2020 98.2%, 98.7%, 98.7% and 98.7% respectively, of our credit card portfolio was unsecured. As of March, 2020, and March 31, 2019, our gross NPAs as a percentage of gross advances was 2.01% and 2.44%, respectively, as compared to 2.83% as of March 31, 2018 and 2.34% as of March 31, 2017. the gross NPA for period ending September 30, 2020 were 4.29%. Unsecured credit card receivables present a greater credit risk for us than a portfolio of secured loans because they are not supported by realizable collateral that could help ensure an adequate source of repayment for the credit card receivables. Although we may obtain direct debit instructions from our cardholders for such unsecured credit card receivables, we may still be unable to collect in part or at all in the event of non-payment by a cardholder. Further, any expansion in our unsecured credit card receivables portfolio could require us to increase our provision for credit losses, which would decrease our profitability.

4. ***We face competition in the credit card market from other credit card issuers and payment solutions providers, and we may not be able to compete effectively, which could result in fewer cardholders and lower account balances and could materially adversely affect our financial condition, cash flows and results of operations.***

The credit cards business is highly competitive. This increasingly competitive environment is primarily a result of changes in technology, product delivery systems and regulation, as well as the emergence of new or significantly larger credit card issuers or payment solutions providers, all of which may affect our cardholders' expectations and demands. The table below sets forth the market position information for the top-five players in the credit-card industry for the previous three fiscals in terms of number of credit cards in force, number of credit card transactions, and total credit card spends:

We compete with other credit card issuers and payment solutions providers such as banks, payment banks, NBFCs and financial technology enterprises on the basis of a number of factors, including brand, reputation, customer service, product offerings, incentives, pricing, technology and other terms. In particular, mobile, e-wallet and tokenization platforms, including the increasingly prevalent unified payments interface platform, present formidable competition as they are able to attract large payment volumes at low or no payment processing fees to merchants. Competition in credit cards is also based on merchant acceptance and the value provided to the customer by rewards programs. Many credit card issuers have instituted rewards programs that are similar to ours, and, in some cases, could be viewed by customers as more attractive than our programs, which could lead such cardholders to prefer spending using our competitors' credit cards over our credit cards. As competitive pressures intensify, we may be required to expend additional resources to offer a more attractive value proposition to our cardholders, which could negatively impact our profit margins. These competitive factors may also affect our ability to attract and retain cardholders, slow down our credit card receivables growth and reduce revenue growth from our core business.

Some of our competitors operate out of large, well-established banks and may have greater operational efficiencies, better local distribution capabilities and lower-cost funding than us, among other things, which may give those competitors certain advantages over us. For example, banks in India have access to a broader set of their customers' transactional information than we do, and banks are not required to perform additional KYC procedures in order to provide credit cards to their customers. Banks also have the ability to take deposits from the public, which provides them with funding advantages, while under existing RBI regulations non-deposit taking NBFCs, like us, are not allowed to take deposits from the public. Many of our competitors are also focusing on cross selling their products and developing new products or technologies, which could affect our ability to maintain or grow existing cardholder relationships. Some of our competitors have developed, or may develop, substantially greater financial and other resources than we have, may offer higher value propositions or a wider range of programs and services than we offer or may use more effective advertising, marketing or cross-selling strategies to acquire and retain more cardholders, capture a greater share of credit card transactions, attain and develop more attractive partnership programs than we have. We may not be able to compete effectively against these threats or respond or adapt to changes in consumer spending habits as effectively as our competitors. If we are unable to compete successfully, or if competing successfully requires us to take aggressive actions in response to competitors' actions, our financial condition, cash flows and results of operations could be materially adversely affected.

5. *Fraudulent activity associated with our products or our networks could cause our brand to suffer reputational damage, the use of our products to decrease and our fraud losses to be materially adversely affected.*

We are subject to the risk of fraudulent activity associated with merchants, cardholders and other third parties handling cardholder information. Credit card fraud, identity theft and related crimes are prevalent, and perpetrators are growing ever more sophisticated. Our resources, cardholder authentication methods and fraud prevention tools may be insufficient to accurately predict or prevent fraud. Additionally, as we expand our business, our reliance of third parties increases who may process our confidential customer information as a part of the services provided by them, thereby increasing our risk of fraud and security breaches by such third parties. An increase in fraudulent and other illegal activity involving us could lead to reputational damage, damage our brand, and could reduce the use and acceptance of our credit cards. In addition, significant increases in fraudulent activity could lead to regulatory intervention (such as mandatory card reissuance) and reputational and financial damage to our brand. Each of these factors could negatively impact the use of our credit cards, the level of our fraud charge-offs, our financial condition, and other results of operations and thereby have a material adverse effect on our business. Although we have not yet been subject to a material incidence of frauds, we cannot assure you that material frauds will not occur in future.

6. *We rely on third parties for customer acquisitions, technology, platforms and other services integral to the operations of our businesses.*

We rely on third-party service providers, merchants, cardholder acquisition channels, processors, aggregators, payment networks and other third parties for services that are integral to our operations, such as call center services, fraud control, payment processing, collections, logistical services and certain other services that we provide to our cardholders. We also rely in part on third party co-brand partners for new cardholder acquisitions. As of September 30, 2020, we had a total of 3,911 employees as compared to 3,967 employees as of March 31, 2020 and 3,701 employees as of March 31, 2019. Our outsourced workforce as of September 30, 2020 was 38,355 most of which were engaged in our sales, customer service, collections and operations functions. As outsourcing, specialization of functions, third-party digital services and technology innovation within the credit card industry increase (including with respect to mobile technologies, tokenization, big data and cloud storage solutions), additional third parties may become involved in processing card transactions and handling our data, among other activities.

We are subject to the risk that activities of such third parties may adversely affect our business. If a service provider or other third party ceases to provide the services upon which we rely, whether as a result of natural disaster, operational disruptions or errors, terrorism, information or cyber security incidents, or any other reason, such failure could interrupt or compromise the quality of our services to cardholders or impact our ability to grow our business. We are also exposed to the risk that a disruption or other event at a third party affecting one of our service providers or co-brand partners could impede their ability to provide to us services or data on which we rely to operate our business. Service providers or other third parties could also cease providing data to us if we are unable to negotiate for data use rights or use our data for purposes that do not benefit us.

Our fraud control and collection teams work regularly with third party customer verification agencies, to conduct credit appraisals, to verify customer details and to collect overdue payments from customers. We also engage third party service providers, for engaging manpower for undertaking sales and related activities, as a part of our open market marketing channel. Accordingly, we are exposed to the risk that third-party service providers may be unable to fulfil their contractual obligations to us (or will be subject to the risk of fraud or operational errors by their respective employees) and to the risk that their (or their vendors') business continuity and data security systems prove to be inadequate. Further, under RBI regulations, we are required to regulate and monitor the actions of the third parties engaged by us. For instance, we are required to ensure that the third parties appointed by us do not transfer or misuse any customer information during marketing of credit card products. Any defaults or lapses by our third-party service providers could result in a material adverse effect on our business, reputation, financial condition and results of operations.

Additionally, we are dependent on certain external vendors or service providers for the implementation and maintenance of our systems. We are exposed to the risk that these external vendors or service providers may be unable to fulfil their contractual obligations to us (or will be subject to the risk of fraud

or operational errors by their respective employees) and to the risk that their (or their vendors') business continuity and data security systems prove to be inadequate.

The management of multiple vendors also tends to increase our operational complexity. A failure to exercise adequate oversight over service providers, including compliance with service level agreements or regulatory or legal requirements, could result in regulatory actions, fines, sanctions or economic and reputational harm to us. In addition, we may not be able to effectively monitor or mitigate operational risks relating to our vendors' service providers. Although we may have the benefit of contractual indemnities in certain of our third-party service agreements, such indemnities may not always cover all types of liabilities we may incur and, even if they are within the scope of coverage, the amounts we recover under such indemnities may not be sufficient to cover all of our losses.

7. *Cyber-attacks or other security breaches could have a material adverse effect on our business, results of operation or financial condition.*

In the normal course of business, we collect, process and retain sensitive and confidential information regarding our partners and our cardholders. Our operations therefore rely on the secure processing, storage and transmission of confidential and other information in our computer systems and networks. Although we devote significant resources and management focus to ensuring the integrity of our computer systems and networks through information security and business continuity programs, our systems and network are vulnerable to external or internal security breaches, acts of vandalism, computer viruses or other malicious code, misplaced or lost data, programming or human errors, or other similar events. Deficiencies in our internal management of information systems and data security practices also expose us to heightened risks which could cause damage to our reputation and adversely impact our business and financial results. Such vulnerabilities could result in a compromise or breach of the technology that we use to protect our cardholders' personal information and transaction data that we receive and store, which could lead to unauthorized use of our and our cardholders' data or to fraudulent transactions on our cards, as well as costs associated with responding to such an incident.

We also face risks related to cyber-attacks and other security breaches in connection with credit card transactions that typically involve the transmission of sensitive information regarding our cardholders through various third parties, including our co-brand partners, merchant acquiring banks, payment processors, card networks (e.g., Visa and MasterCard) and our processors (e.g., Fiserv). Some of these parties have in the past been the target of security breaches and cyber-attacks, and because the transactions involve third parties and environments such as the point of sale that we do not control or secure, future security breaches or cyber-attacks affecting any of these third parties could impact us through no fault of our own, and in some cases, we may have exposure and suffer losses for breaches or attacks relating to them. We also rely on numerous other third-party service providers to conduct other aspects of our business operations and face similar risks relating to them. While we regularly conduct security assessments of significant third-party service providers, we cannot be sure that their information security protocols are sufficient to withstand a cyber-attack or other security breach. It is possible that we and our third-party vendors and service providers may not be able to anticipate or implement preventive measures against all security breaches, especially because the techniques used change frequently or are not recognized until launched, and because security attacks can originate from a wide variety of sources. Third parties may also attempt to fraudulently induce our employees, cardholders, partners or other users of our systems to disclose sensitive information in order to gain access to our data or that of our cardholders or partners. These risks may increase in the future as we continue to increase our reliance on the internet and use of web-based product offerings and on the use of cyber-security. A successful penetration or circumvention of the security of our systems or a defect in the integrity of our systems or cyber-security could cause serious negative consequences for our business, including significant disruption of our business and operations, misappropriation of our confidential information or that of our cardholders, or damage to our computers or operating systems and to those of our cardholders, partners and counterparties. Although we have not experienced any material data breaches in the past, we cannot assure you that such breaches will not occur in the future.

Any successful cyberattacks or data breaches could result in proceedings or actions against us by governmental entities or others, which could subject us to significant awards, fines, penalties, judgments, and negative publicity arising from any financial or non-financial damages suffered by any individuals.

8. *Our provisions for credit losses may prove to be insufficient to cover losses on our credit card receivables.*

We maintain provisions for credit losses at levels that we believe to be appropriate to provide for incurred losses in our credit card receivables portfolio. However, the process for establishing provisions for credit losses under the “expected credit loss” model involves a high degree of judgment and complexity and is thus susceptible to being incorrectly or imprecisely estimated. Our provisioning coverage ratio (PCR) (calculated as total provisions on Stage 3 assets divided by total Stage 3 assets) as of March 31, 2018, 2019 and 2020 was 67.3%, 66.5% and 67.3%, respectively. PCR as of September 30, 2020 was 65.6%. Although we maintain provisions for credit losses as per expected credit loss model as mentioned above, we cannot fully predict such losses or give assurances that our provisions will be adequate in the future, and we may underestimate our incurred losses and fail to maintain sufficient provisions for credit losses to account for such losses.

We may not be successful in our efforts to improve collections and/or recoveries in relation to our NPAs, or otherwise adequately control our NPAs. Should the overall credit quality of our credit card receivables portfolio deteriorate, the current level of our provisions may not be adequate to cover further increases in the amount of NPAs. Moreover, we cannot assure you that our experience of NPA recoveries will be similar to that in the past. Increases in our provisions for credit losses or recognized losses would result in a decrease in net earnings and capital and could have a material adverse effect on our business, results of operations and financial condition and adversely affect the trading price of the Equity Shares/debentures. Substantially all of our business activities are conducted in India, and we rely primarily on interest charged on our credit card receivables and fee income derived from interchange fees, late fees, annual card fees and service charges to generate our revenues. These revenue streams have historically been affected by key macroeconomic conditions in India and are likely to continue being affected by them in the future. Consumer confidence, unemployment and overall economic growth rates are among the main factors that often impact consumer spending behavior and demand for credit. Poor economic conditions reduce the usage of our credit cards and the average purchase amount of transactions on our credit cards, both of which reduce our interest and fee incomes. Poor economic conditions also tend to adversely affect our cardholders’ ability and willingness to pay amounts owed to us, thus increasing delinquencies, charge-offs and provisions for credit losses, and decreasing recoveries.

Economic growth in India is influenced by, among other things, inflation, interest rates, foreign trade and capital flows, as well as the monsoon season. The level of inflation or depreciation of the Indian rupee may limit monetary easing or cause monetary tightening by the RBI. Any adverse development in the Indian economy, changes in interest rates or other trends or financial difficulties, which are not within our control, could result in non-payment by our cardholders. A slowdown in economic growth in India could also result in lower demand for credit and other related services and may impact the repayment capabilities of our cardholders, resulting in increases in defaults. Substantially all of our credit card receivables portfolio is unsecured, which may heighten our exposure to these risks. These factors could have a material adverse effect on our business, results of operations and financial condition.

9. *The financial services industry is heavily regulated, and material changes in the regulations that govern us could cause our business to suffer.*

We are a Non-Banking Financial Company – Systemically Important Non-Deposit Taking Company (“NBFC-ND-SI”) registered with the RBI. We are also registered with the Insurance Regulatory and Development Authority of India (“IRDAI”) to act as a “corporate agent (composite)”. Further, we are also registered with the Indian Department of Telecommunications (“DoT”) as an ‘other service provider’ for operating our call-centers for servicing our customers. Accordingly, in addition to the general regulations governing a company in India, we are also subject to comprehensive regulation and supervision by various regulatory authorities, including the RBI, the IRDAI and the DoT. We are required to obtain and maintain various statutory and regulatory permits and approvals from time to time to operate our business, which requires us to comply with certain terms and conditions to continue our operations.

The financial services industry is heavily regulated and is also subject to frequent change of policies and amendments based on changing macro-economic conditions. We cannot assure you that laws or regulations will not be adopted, amended, enforced or interpreted in the future in a manner that will not

have a material adverse effect on our business and results of operations. For example, recent media articles have reported the RBI's intention to restrict the use of direct selling agents by banks to source retail loans and carry out physical document verification and, if such regulatory changes were to be extended to credit card issuers like us, we may be required to change the way in which we operate our business. In addition, the volume, granularity, frequency and scale of regulatory and other reporting requirements require a clear data strategy to enable consistent data aggregation, reporting and management. Inadequate management information systems or processes, including those relating to risk data aggregation and risk reporting, could lead to a failure to meet regulatory reporting requirements or other internal or external information demands, and we may face regulatory penalties as a result.

For instance, we are required to obtain and maintain certificate of registration for carrying on business as an NBFC from the RBI, which is subject to numerous conditions and requirements including exposure limits, classification of NPAs, KYC requirements and other internal control mechanisms. We are also required to obtain and maintain certificate of registration for carrying on business as a composite corporate insurance agent from the IRDAI and as 'other service provider' from the DoT, each of which are further subject to certain conditions and requirements prescribed by the respective regulatory authority. Further, although we have no reason to believe that such statutory and regulatory permits and approvals will not be granted and/or renewed we cannot guarantee that we will be able to maintain, renew or obtain any required statutory and regulatory permits and approvals in the future, in a timely manner, or that no additional requirement will be imposed in connection with such request. In addition, we require various registrations to operate our branches in the ordinary course of business, such as those required to be obtained or maintained under applicable legislations governing shops and establishments, professional tax, labor related registrations and trade licenses of the particular state in which they operate. Some of these approvals may have expired, and we have either applied, or is in the process of applying for renewals of them. In the event that we are unable to renew or maintain such regulatory approvals or comply with any or all of the applicable terms and conditions, or seek waivers or extensions of time for complying with such terms and conditions, we may be subject to regulatory actions by the RBI including the levy of fines or penalties and/or the cancellation of our license to operate as an NBFC and such similar actions by other regulators, as applicable. Any such actions may adversely affect our business, prospects, results of operations, financial condition and the trading price of our equity Shares/debentures.

10. Our inability to effectively manage our funding and liquidity risk and risk arising out of an unsecured loan which may be recalled at any time could have a material adverse effect on our funding, profitability, liquidity and ability to meet our obligations.

We need to effectively manage our funding and liquidity in order to meet our cash requirements such as day-to-day operating expenses, extensions of revolving credit to our cardholders, payments of principal and interest on our indebtedness and payments on our other obligations. If we do not have sufficient liquidity, we may be exposed to maturity mismatches between our assets and liabilities, face liquidity shortfalls and may not be able to meet our obligations when due, particularly during a liquidity stress event. In addition, as a growing financial services business, we have in the past experienced negative cash flows from operating activities in order to fund the growth in our credit card receivables portfolio, and we have financed these negative cash flows by accessing additional debt or equity financing. Any failure in obtaining additional debt financing in the future would adversely affect our ability to grow our credit card receivables portfolio.

RBI regulations do not permit non-deposit taking NBFCs, like us, to take deposits from the public. Our primary sources of funding and liquidity are working capital facilities from banks, issuance of non-convertible debentures, commercial paper and other debt securities, as well as our shareholders' equity. Further, we have also issued multiple series of unlisted NCDs, out of which one such series of unlisted NCDs may be recalled by lenders pursuant to a put/call option arising 18 months prior to the maturity date, subject to the applicable law. We may need additional financing in the future to refinance our existing indebtedness and finance growth of our business. The availability of additional financing will depend on a variety of factors such as financial market conditions generally, including the availability of credit to the credit cards industry, our performance, capital adequacy levels, relationships with our lenders, our Promoter's and our credit ratings and our current and future results of operations and financial condition. Disruptions, uncertainty or volatility in the capital or credit markets, such as the uncertainty and volatility experienced in the capital and credit markets during periods of financial stress and other economic and political conditions in the global markets, as well as the government of India's indebtedness levels and fiscal policies, may limit our ability to obtain additional financing or refinance

maturing liabilities on desired terms (including funding costs) in a timely manner or at all. As a result, we may be forced to delay obtaining funding or be forced to issue or raise funding on undesirable terms, which could significantly reduce our financial flexibility and cause us to contract or not grow our business, all of which could have a material adverse effect on our results of operations and financial conditions. There can be no assurance that significant disruptions, uncertainties and volatility will not occur in the future. If we are unable to continue to finance our business and access capital markets on favorable terms and in a timely manner, or if we experience an increase in our borrowing costs or otherwise fail to manage our liquidity effectively, this may adversely affect our business growth and, as a result, impact our businesses, prospects, profitability, financial condition and results of operations, as well as the market price of the Equity Shares/debentures.

11. Our business depends on our ability to manage our credit risk and failing to manage this risk successfully may result in high charge-off rates, which would materially adversely affect our business, profitability and financial condition.

We seek to grow our credit card receivables portfolio while maintaining quality credit performance. Our success depends on our ability to manage our credit risk while attracting new cardholders with profitable usage patterns. We select our cardholders, manage their accounts and establish terms and credit limits using scoring models and other analytical techniques that are designed to set terms and credit limits to appropriately compensate us for the credit risk we accept, while encouraging cardholders to use their available credit. The models and approaches we use may not accurately predict future charge-offs due to, among other things, inaccurate assumptions. Inaccuracy of assumptions can arise, in particular, as some of our assumptions relate to matters that are inherently difficult to predict and beyond our control (e.g., macroeconomic conditions and their impact on our various partners' and cardholders' behaviors) and often involve complex interactions between a number of dependent and independent variables. Moreover, our models cannot predict loss of employment or prolonged or serious medical illness. Our models may also produce incorrect predictions of future events in relation to a cardholder due to erroneous or misleading data or information provided by such cardholder. The errors or inaccuracies in our models could be material. While we continually seek to improve our assumptions and models, we may make modifications that unintentionally cause them to be less predictive or we may incorrectly interpret the data produced by these models in setting our credit policies. This could lead us to make wrong or sub-optimal decisions in managing our business and allocating the appropriate product to cardholders based on their risk profile.

A cardholder's ability to repay us can be negatively impacted by increases in their payment obligations to other lenders under mortgage, credit card and other borrowing obligations. These changes can result from increases in base lending rates or structured increases in payment obligations and could reduce the ability of our cardholders to meet their payment obligations to other lenders and to us. In addition, a cardholder's ability to repay us can be negatively impacted by the restricted availability of credit to consumers generally, including reduced and closed lines of credit. Cardholders with insufficient cash flow to fund daily living expenses and lack of access to other sources of credit may be more likely to increase their card usage and ultimately default on their payment obligations to us, resulting in higher credit losses in our portfolio. Our collection operations may not effectively secure more of our cardholders' diminished cash flow than our competitors. We may not identify cardholders who are likely to default on their payment obligations to us, which could have a material adverse effect on our business, results of operations and financial condition. Our strategy to increase our penetration in India's tier II and tier III cities and other smaller geographical regions may heighten these risks, as they may expose us to new cardholders with riskier credit profiles.

Our ability to manage credit risk may also be adversely affected by legal or regulatory changes (such as restrictions on collections and bankruptcy laws), competitors' actions and consumer behavior, as well as inadequate collections staffing, resources, techniques and models. Our failure to manage our credit and other risks may materially adversely affect our profitability and adversely affect the trading price of the Equity Shares/debentures.

12. We may not be successful in implementing our growth strategies or penetrating new markets or services.

We have experienced significant growth in recent years. Our growth strategies primarily focus on, among others, increasing new card acquisitions and partnerships with retail chains and other retail outlets,

capitalizing on SBI's infrastructure and largely untapped customer base, and stimulating growth in credit card transaction volumes. These strategies may not be as successful as we had initially anticipated and may ultimately be unsuccessful. Even if such strategies are partially successful, we cannot assure you that we will be able to manage our growth effectively, continue to grow our business at a rate similar to what we have experienced in the past or fully deliver on our growth objectives. Challenges that may result from our growth strategies include our ability to, among other things:

- manage efficiently the operations and employees of our expanding businesses;
- manage difficulties arising from operating a larger and more complex organization;
- manage geographically diverse operations and to efficiently and optimally allocate management, technology and other resources across our network;
- manage third-party service providers in relation to any outsourced services;
- maintain and grow our existing cardholder base;
- maintain and grow our credit card spends;
- maintain and grow our credit card receivables portfolio in proportion with the growth in credit card spends;
- maintain the level of customer service;
- assess the value, strengths and weaknesses of future investments;
- launch new products with an attractive value proposition;
- keep our information technology systems aligned and up to date with the rapidly evolving technology in the credit cards and payment services industries;
- complete new product development cycles successfully and in a timely fashion;
- scale up our technology infrastructure to meet the requirements of growing volumes;
- apply our risk management policy effectively;
- keep our cardholders' data secure and prevent data breaches; and
- hire and train additional skilled personnel; each of which would have a potential adverse impact on our profitability.

We may not be able to effectively achieve or manage our growth. For example, we intend to increase partnerships with retail chains but there can be no assurance that we will be able to enter into such partnerships. Additionally, our intended increase in marketing spend to promote our products and plans to capitalize on SBI's existing customer base may not result in us achieving a larger cardholder base. A key element of our business strategy is to increase the usage of our credit cards by our cardholders, and thereby increase our revenue from transaction and service fees and interest income. However, our cardholders' use and payment patterns may change because of social, legal, regulatory and economic factors, and cardholders may decide to other payment products instead of credit cards, not increase card usage, or pay their balances within the grace period to avoid charges. Our ability to increase card usage may be affected by competing card products, especially as the competition for the same share of wallet has been increasing with cardholders increasingly holding multiple cards from different credit card issuers, as well as by customer satisfaction levels, legislative or regulatory changes, or our ability to maintain and increase authorization rates for growing numbers of credit card transactions processed through our systems.

Further, our competitors may introduce reward programs which may be more attractive than ours. If we are unable to continue to increase our cardholder engagement, our ability to grow usage of our credit cards may be hampered. As a result of these factors, we may be unable to increase or sustain credit card usage, which could impair growth in or lead to diminishing average balances and total revenue, and adversely affect the trading price of the Equity Shares/debentures. We may also fail to develop or retain the technical expertise required to develop and grow our digital capabilities. To the extent that we fail to meet required targets, develop and launch new products or services successfully, we may lose any or all of the investments that we have made in promoting them, and our reputation with our cardholders could be harmed. Moreover, if our competitors are better able to anticipate the needs of individuals in its target market, we could lose market share and our business could be adversely affected. Our inability to effectively manage any of these issues may adversely affect our business growth and, as a result, impact our businesses, prospects, financial condition and results of operations, as well as the market price of the Equity Shares/debentures.

13. *Our results of operations and growth depend on our ability to retain our existing co-brand partners and attract new co-brand partners.*

In the ordinary course of our business we enter into different types of contractual arrangements with business partners in a variety of industries to provide co-branded cards for consumers. We have co-brand partnerships with several companies in the travel, fuel, fashion, healthcare and mobility industries, including Air India, Apollo Hospitals, BPCL, Etihad Guest, Fbb, the IRCTC, OLA Money and Yatra, among others. Credit card spends from our co-branded credit cards represented ~19% , ~25%,~32% of our total credit card spends in fiscal 2019, fiscal 2020 and fiscal 2021 respectively. We also rely on our co-brand partners to acquire new customers through our open-market sourcing channels, and newly sourced co-brand accounts represented ~30%,~35%,~32% of our total cardholder accounts sourced in fiscal 2019 ,fiscal 2020 and fiscal 2021 respectively.

The co-branding arrangements entered into by us with our co-brand partners are for a fixed period of time, typically ranging from three to five years, and the agreements terminate upon the expiry of the term, unless extended or renewed by the parties. Further, while certain of our co-brand agreements provide for a lock-in period, the parties have the ability to terminate the arrangement upon the expiry of the lock-in period, after providing a prior written notice in accordance with the terms of the respective agreements.

Competition for relationships with new and existing co-brand partners is very intense and there can be no assurance we will be able to grow or maintain these partner relationships or that they will remain as profitable. Establishing and retaining attractive co-brand partnerships is particularly competitive among card issuers. We face the risk that our co-brand arrangements may not be renewed or may be renewed on terms which are less favorable to us. In addition, existing relationships may be renewed with less favorable terms to us in response to increased competition for such relationships. Our results of operations and growth may be impacted by our ability to retain existing co-brand partners and attract new co-brand partners. In addition, if our co-brand partners do not fulfil their obligations under our cobrand agreements, we may not be able to achieve the anticipated benefits from our co-brand relationships. In particular, certain of our co-brand partners are responsible for significant contributions to our credit card spends and new cardholder account sourcing, and the loss of any significant co-brand partner, or any slowdown in such co-brand partners' individual business or the industry in which they operate, may adversely affect our operations.

14. *We may not be able to detect money laundering and other illegal or improper activities fully or on a timely basis, which could expose us to additional liability and harm our business or reputation.*

We are required to comply with applicable anti-money laundering and anti-terrorism laws and other regulations in India and in other jurisdictions where we may have operations. These laws and regulations require us, among other things, to adopt and enforce know-your-customer, anti-money laundering and combating financing of terrorism ("KYC/AML") policies and procedures and to report suspicious and large transactions to the applicable regulatory authorities in different jurisdictions.

We have adopted policies and procedures aimed at detecting and preventing the use of our products and payment services for money laundering activities and by terrorists and terrorist-related organizations and individuals, such policies and procedures may not completely eliminate instances where we may be used by other parties to engage in money laundering and other illegal or improper activities. Our business and reputation could suffer if any such parties succeed in using our products or payment services for money laundering or other illegal or improper purposes.

We have in place internal controls, systems and procedures in conformity with the RBI directives and believe that our anti-money laundering and KYC compliance policies and procedures are generally adequate and in accordance with regulatory guidelines. However, to the extent that we fail to fully comply with applicable KYC/AML laws and regulations, the relevant government agencies and regulatory authorities may impose fines and other penalties against us, which could adversely affect our business and reputation.

We have in the past received regulatory observations highlighting certain instances of procedural lapses relating to KYC/AML rules and regulations. Such procedural lapses have included, for example, failure to obtain signed KYC documentation from certain of our cardholders. Although we have implemented

corrective measures designed to prevent recurrence of these lapses, no assurances can be provided that such measures will be effective or that similar issues will not arise in the future.

The RBI as well as other regulators are empowered to impose penalties on us as an NBFC and our employees and take other administrative measures to enforce applicable regulatory requirements, and failure by us to comply with such regulatory requirements could expose us to significant monetary liabilities, regulatory challenges and reputational damage. Penalties imposed by regulators may generate adverse publicity for us and our business. Such adverse publicity, or any future scrutiny, investigation, inspection or audit which could result in fines, public reprimands, damage to our reputation, significant time and attention from our management, costs for investigations and remediation of affected cardholders, may materially adversely affect our business and financial results.

15. Our business, financial condition and results of operations may be adversely affected by regulation or legislation limiting interchange fees.

Regulators and legislative bodies in a number of countries are seeking to reduce credit card interchange fees through legislation, competition-related regulatory proceedings, central bank regulation or litigation. Interchange reimbursement rates in India are set by payment networks such as MasterCard and Visa. In some jurisdictions, interchange fees and related practices are subject to regulatory activity that has limited the ability of certain networks to establish default rates, including in some cases imposing caps on permissible interchange fees. A development in certain countries could influence regulatory approaches other countries, including India. In India, the RBI has already implemented regulations limiting interchange fees payable on debit card transactions, and similar regulations could be extended to credit card transactions in the future. Credit card interchange fees are one of the largest components of our total revenue from operations. Interchange fees comprised 14.6% in fiscal 2021, 20.9% in fiscal 2020 and 22.5% in fiscal 2019 of our total revenue from operations. Any change in laws or regulations which, among other things, prescribes a ceiling on, or otherwise restricts our ability to charge interchange fees or similar fees, may require us to restructure our activities and incur additional expenses to comply with such laws and regulations, which could adversely affect our business and our financial performance.

16. Regulatory changes limiting the interest rates we may charge our cardholders could adversely affect our business.

Indian regulations do not currently impose any limit on the interest rate we may charge our cardholders. However, Indian regulations could change, and our credit card receivables portfolio could become subject to interest rate caps in the future. The interest that we earn on revolving and term credit card balances comprised ~59% in fiscal 2021, ~52% in fiscal 2020 and ~51% in fiscal 2019 of our total revenue from operations. Any change in Indian laws, regulations, policies or the manner in which they are interpreted (by the judiciary or otherwise) or enforced which has the effect of imposing a ceiling on the interest rates that may be charged by credit card issuers may require us to restructure our activities and incur additional expenses to comply with such laws and regulations, which could adversely affect our business and our financial performance.

17. We are subject to certain restrictive covenants in our financing instruments that restrict, among other things, our ability to declare dividends and pledge assets as collateral.

The financing documents relating to our outstanding indebtedness contain certain restrictive covenants that, among other things, require us to comply with the RBI's capital adequacy ratios and restrict, in certain circumstances, our ability to:

- (i) declare dividends;
- (ii) pledge assets as collateral;
- (iii) undergo a change of control event;
- (iv) undergo significant changes in our management;
- (v) enter into mergers, consolidations or other corporate reorganizations;
- (vi) change our memorandum of association or articles of association; and
- (vii) take on new indebtedness.

These restrictions may limit our ability to react to changes in the Indian economy or the financial services industry, take advantage of profitable opportunities and fulfil our obligations under our other financing

documents, which could adversely affect us. In the event of a breach of any such restrictive covenant, an event of default may be triggered, which could result in, among other things, the termination or suspension of the borrowing arrangement, enforcement of security interest, imposition of contractual penalties and payment of further interest at such rate as may be prescribed. An event of default could also potentially result in a cross default under our other debt obligations. In the event of an acceleration of our outstanding indebtedness, we may be unable to settle the outstanding amounts of our debts, which would adversely affect our business. Although we are currently in compliance with the financial covenants contained in our existing financing documents, no assurances can be provided that we will continue to be in compliance in the future, or that we will be able to obtain waivers for any future instances of non-compliance. Further, we cannot assure you that, in the event of any such default, we will have sufficient resources to repay the outstanding amounts in accordance with the borrowing arrangements.

18. *Our business may suffer from continuity risks, high losses and slow growth due to extreme scenarios like a Global pandemic*

Our business, like the rest of industry is impacted by global and local trends and risks including war, natural calamities, global pandemics etc. We have detailed and robust business continuity, including disaster recovery backup system for our critical and important IT systems and applications. We also have also moved towards digital sales and collections capabilities, where there is zero touch interface with customers (barring any regulatory requirement). We have virtual dialer capabilities allowing us to make collections calls where the associates are not physically sitting in office. We charged a COVID19 related provision in our Mar'20 financials, keeping in line expectations of higher losses due to the pandemic and repayment moratorium. This will ensure that incremental losses attributable to the pandemic shall not cause a heavy charge on this years' bottom-line. We have also revised our sourcing strategy to allow for acquisition of customers, by minimizing the risks. This is expected to impact our approval rates during the crisis. Post the crisis we expect to improve our approval rates in a calibrated fashion.

RISKS RELATING TO INVESTMENT IN THE DEBENTURES

1. *There is no guarantee that the Debentures issued pursuant to this Issue will be listed on the NSE/ BSE in a timely manner, or at all.*

In accordance with Indian law and practice, permissions for listing and trading of the Debentures issued pursuant to this Issue will not be granted until after the Debentures have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Debentures to be submitted. There could be a failure or delay in listing the Debentures on the NSE/ BSE.

2. *There has been only limited trading in the Debentures, and it may not be available on sustained basis in the future, and the price of the Debentures may be volatile.*

The Company intends to list the Debentures on the WDM segment of the BSE. The Company cannot provide any guarantee that the Debentures will be frequently traded on the Stock Exchange(s) and that there would be any market for the Debenture(s). It is not possible to predict if and to what extent a secondary market may develop in these debentures or at what price the debentures will trade in the secondary market or whether such market will be liquid or illiquid. The fact that the debentures may be so listed or quoted or admitted to trading does not necessarily lead to greater liquidity. The more limited the secondary market is, the more difficult it may be for holders of the Debentures to realize value for the Debentures prior to settlement of the Debentures.

3. *You may not be able to recover, on a timely basis or at all, the full value of the outstanding amounts and/or the interest accrued thereon in connection with the Debentures.*

Company's ability to pay interest accrued on the Debentures and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors, including, inter-alia the financial condition, profitability and the general economic conditions in India and in the global financial markets. Company cannot assure you that it would be able to repay the principal amount outstanding from time to time on the Debentures and/or the interest accrued thereon in a timely manner, or at all.

4. *Changes in interest rates may affect the prices of the Debentures.*

All securities where a fixed rate of interest is offered, such as the Debentures, are subject to price risk. The price of such securities will vary inversely with changes in prevailing interest rates, i.e. when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of prevailing interest rates. Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the price of the Debentures.

5. *Any downgrading in credit rating of the Debentures may affect the value of Debentures and thus our ability to raise further debts.*

The Debentures proposed to be issued under this Issue have been rated "ICRA AAA/Stable" by ICRA vide its letter dated December 09, 2020 and "CRISIL AAA/Stable" by CRISIL vide its letter dated December 03, 2020. Company cannot guarantee that these credit ratings will not be downgraded by the rating agencies in future. The ratings provided by these Credit Rating Agencies may be suspended, withdrawn or revised at any time. Any revision or downgrading in the above credit rating may lower the value of the Debentures and may also affect SBICPSL's ability to raise further debt.

6. *Any volatility in the exchange rate may lead to a decline in India's foreign exchange reserves and may affect liquidity and interest rates in the Indian economy, which may impact the Issuer*

Capital inflows into India have remained extremely volatile responding to concerns about the domestic macroeconomic landscape and changes in the global risk environment. A substantial increase in the import bill, mainly on account of increase in crude oil prices may lead to a significant widening of the trade deficit that in turn increase the size of the current account deficit from the budget estimates. In addition to this, reversal of the US monetary policy, trade conflicts across the globe and US sanctions on Iran can lead to pressure on India's foreign exchange reserve and further bring volatility for Indian Rupee. This may lead to reduction in the amount of liquidity in the domestic financial system and in turn could further impact domestic interest rates.

7. *No Debenture Redemption Reserve*

No Debenture Redemption Reserve is being created for the present Issue. Creation of DRR is not required for the proposed issue of Debentures as per Rule 18 (7) (b)(ii) of Companies (Share Capital and Debentures) Rules, 2014. In absence of DRR investor may find it difficult to recover their money.

EXTERNAL RISK FACTOR

1. *Company's operations are affected by conditions in the financial markets and economic conditions generally, both in India and elsewhere around the world which could have an adverse effect on its operations.*

Company's business is affected by conditions in the global financial markets and economic conditions generally, both in India and elsewhere around the world. Many factors or events could lead to a downturn in the global financial markets including war, acts of terrorism, natural catastrophes and sudden changes in economic and financial policies.

2. *Business is subject to a significant number of tax regimes and changes in legislation governing the rules implementing them or the regulator enforcing them in any one of those jurisdictions could negatively and adversely affect Company's results of operations.*

Company is subject to regulations by Indian governmental authorities. These laws and regulations impose numerous requirements on us, including asset classifications and prescribed levels of capital adequacy. Company is registered as non-deposit taking NBFC under RBI and is subject to detailed supervision and regulation by the RBI. Any changes in the regulatory framework affecting NBFCs including the provisioning for NPAs or capital adequacy requirements or cash reserves requirement by the regulator could adversely affect the profitability of the Company or its future financial performance by requiring a restructuring of its activities, increasing costs or otherwise. In addition, the Company is generally

subject to changes in accounting principles as well. Any adverse change in certain statutory, regulatory, exposure and prudential norms may limit the flexibility of the Company's loans, investments and other products.

3. *Any downgrading of India's debt rating by an international rating agency could have a negative impact on Company's operations.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact Company's ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on its operations and future financial performance, its ability to obtain financing for capital expenditures and the trading price of the Debentures.

4. *Political instability or changes in the Government could delay further liberalization of the Indian economy and adversely affect economic conditions in India generally, which could impact Company's operations.*

Company is a non-deposit taking NBFC established in India and all of its operations, assets and personnel are located in India. Consequently, Company's performance, market price, liquidity of its Debentures may be affected by changes in exchange rates and controls, interest rates, Government policies, taxation, social and ethnic instability and other political and economic developments affecting India. The Central Government has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Company's operations are also impacted by regulation prevailing in India. The Company's operations, market price, liquidity of its Debentures may be affected by changes in Central Government policy, taxation and other political, economic or other developments in or affecting India. Since 1991, successive Central Governments have pursued policies of economic liberalization and financial sector reforms. However, there can be no assurance that such policies will be continued. A significant change in the Central Government's policies could adversely affect results of our operations and could cause the price of our Debentures to decline.

5. *Civil unrest, terrorist attacks and war would affect our operations.*

Certain events that are beyond our control, such as terrorist attacks and other acts of violence or war, may adversely affect worldwide financial markets and could potentially lead to a severe economic recession, which could adversely affect results of our operations and cash flows, and more generally, any of these events could lower confidence in India's economy.

Any act of tension in the country leading to overall political and economic instability could have a materially adverse effect on results of our operations, future performance and the trading price of the Debentures.

6. *Operations may be adversely impacted by natural calamities or unfavorable climatic changes.*

An act of God, epidemic, extremely adverse weather conditions or radioactive contamination or ionizing radiation, fire or explosion may adversely affect results of our operations. Pandemics like Covid-19 may affect the financial and operations of the Company.

9. The impact of COVID-19 has led to significant volatility in global and Indian financial markets, which may persist even after restrictions related to the pandemic outbreak are lifted. While there have been some improvements in economic activities in the current quarter, the continued slowdown has impacted new credit card originations, use of credit cards by customers and the efficiency in collection efforts.

Further, in accordance with RBI circulars dated March 27, 2020, April 17, 2020 and May 23, 2020 with regard to providing relief to borrowers on account of COVID-19 pandemic, SBI Card has offered moratorium on credit card dues to eligible borrowers till August 31, 2020 in accordance with Board approved policy.

Thereafter, as per RBI circular dated August 6, 2020 with regard to resolution framework on COVID19 related stress and as per Board approved policy, Company has allowed one time resolution to eligible customers by offering them an option of converting credit card dues into EMIs of upto 24 months. As of September 30, 2020, Company has converted balance of Rs 2,108.03 lakhs into EMI under this scheme and is carrying 10% provision against such balance as per extant RBI circular. The Company also holds additional provision as management overlay as at September 30, 2020 against the potential impact of COVID -19 based on the information available at this point in time.

The impact of COVID-19 remains uncertain and may be different from what we have estimated as of the date of approval of these Condensed Interim Financial Statements and the Company will continue to closely monitor any material changes in future economic conditions

10. The Honorable Supreme Court of India (Hon'ble SC), in a public interest litigation (Gajendra Sharma Vs. Union of India & ANR), vide an interim order dated September 03, 2020 ("Interim Order"), has directed that accounts which were not declared NPA till August 31, 2020 shall not be declared as NPA till further orders. In line with the said Interim Order, the Company has not classified any accounts which were not NPA as of August 31, 2020 as per extant regulatory norms, as NPA after August 31, 2020. Further in light of the interim order, even accounts that would have been classified as NPA post August 31, 2020 have not been and will not be, classified as NPA till such time that the Hon'ble SC rules finally on the matter. However, if the Company had classified borrower accounts as NPA after August 31, 2020, the Company's proforma Gross NPA and proforma Net NPA ratio would have been 7.46% and 2.70% respectively. Pending disposal of the case, the Company as a matter of prudence has, in respect of such accounts made an additional provision as management overlay which is included in the overall ECL provision.

The Debentures shall be allotted in DEMAT form only.

Depository Arrangements

SBICPSL has entered into depository arrangements with NSDL and CDSL. The securities shall be issued in dematerialized form as per the provisions of Depositories Act, as amended from time to time.

SBICPSL has signed two tripartite agreements in this connection viz.

1. Tripartite Agreement dated July 20, 2011 between SBICPSL, National Securities Depository Limited (NSDL) and the Registrar i.e., Zuari Finserv Limited.
2. Tripartite Agreement dated March 28, 2012 between SBICPSL, Central Depository Services Limited (CDSL) and the Zuari Finserv Limited.

The Debentures will be issued in dematerialised form and the same shall be in accordance with the provisions of the SEBI Debt Regulations, Depositories Act, 1996 and the regulations made there under and are to be issued as per the terms and conditions stipulated under this Private Placement Offer Letter.

Procedure for applying for Demat Facility

1. Investor(s) should have / open a beneficiary account with any Depository Participant of NSDL or CDSL.
2. For allotment of Debentures in dematerialized form, the beneficiary account number and depository participants ID shall be specified in the relevant columns of the Application Form.
3. If incomplete/incorrect beneficiary account details are given in the Application Form which does not match with the details in the Depository system, the Allotment of Debentures shall be held in abeyance till such time satisfactory demat account details are provided by the investor.
4. The Debentures allotted to investor in dematerialized form would be directly credited to the beneficiary account as given in the Application Form after verification. Allotment advice/refund order (if any) would be sent directly to the applicant by the Registrar to the Issue but the confirmation of the CREDIT of the Debentures to the investor's Depository Account will be provided to the investor by the investor's DP.
5. Interest or other benefits with respect to the Debentures held in dematerialized form would be paid to those Debentureholders whose names appear on the list of beneficial owners given by the depositories to SBICPSL as on the Record Date and their names are registered as Debenture holders on the registers maintained by Company/Registrar. In case, the beneficial owner is not identified by the Depository on the Record Date due to any reason whatsoever, SBICPSL shall keep in abeyance the payment of interest or other benefits, till such time the beneficial owner is identified by the Depository and intimated to SBICPSL. On receiving such intimation, SBICPSL shall pay the interest or other benefits to the beneficiaries identified, within a period of 15 days from the date of receiving such intimation.
6. Investors may please note that the Debentures in dematerialised form can be traded only on the stock exchanges having electronic connectivity with NSDL or CDSL.

Fictitious applications

Any person who makes, in fictitious name, any application to a body corporate for acquiring, or subscribing to, the Debentures, or otherwise induced a body corporate to allot, register any transfer of Debentures therein to them or any other person in a fictitious name, shall be punishable under the extant laws.

Market Lot

The market lot for trading of Debentures will be one Debenture (“**Market Lot**”).

Trading of Debentures

The marketable lot for the purpose of trading of Debentures shall be ONE (1) DEBENTURE. Trading of Debentures would be permitted in dematerialised mode only in standard denomination of INR10 Lakh and such trades shall be cleared and settled in recognised stock exchange(s) subject to conditions specified by SEBI. In case of trading in Debentures which has been made over the counter, the trades shall be executed and reported on a recognized stock exchange having a nation-wide trading terminal or such other platform as may be specified by SEBI.

Mode of Transfer of Debentures

The Debentures shall be transferred subject to and in accordance with the rules/ procedures as prescribed by the NSDL/ CDSL/ Depository Participant of the transferor/ transferee and any other applicable laws and rules notified in respect thereof. The normal procedure followed for transfer of securities held in dematerialized form shall be followed for transfer of these Debentures held in electronic form. The seller should give delivery instructions containing details of the buyer’s DP account to his Depository Participant.

Transfer of Debentures to and from foreign investors, in case they seek to hold the Debentures and are eligible to do so, will be governed by the then prevailing guidelines of RBI. The transferee(s) should ensure that the transfer formalities are completed prior to the Record Date. In the absence of the same, interest will be paid/ redemption will be made to the person, whose name appears in the records of the Depository. In such cases, claims, if any, by the transferee(s) would need to be settled with the transferor(s) and not with SBICPSL.

Interest on Application Money

Not applicable.

Interest on the Debentures

The Debentures shall carry interest at the coupon rates as per term sheet (subject to deduction of tax at source at the rates prevailing from time to time under the provisions of the Income Tax Act, 1961, or any other statutory modification or re-enactment thereof for which a certificate will be issued by SBICPSL) on the outstanding principal amount of Debentures till final redemption. The credit will be made in the bank account linked to the depository account only.

If any interest payment date falls on a day which is not a Business Day, then payment of interest will be made on the next day that is a Business Day without interest for such additional days. It is clarified that Interest/redemption with respect to debentures, interest/redemption payments shall be made only on the days when the money market is functioning in Mumbai.

Computation of Interest

The Debentures will carry interest rates as per the term sheet from the Deemed Date of Allotment. The interest will be paid from the Deemed Date of Allotment (subject to deduction of tax at source at the rates prevailing from time to time under the IT Act, or any other statutory modification or re-enactment thereof) as per term sheet. The Interest shall be computed on “Actual / Actual” day count basis.

Mode of Payment of Interest

Payment on interest will be made by way of cheque(s)/ redemption warrants(s)/ demand draft(s)/ CREDIT through RTGS system in the name of the Debentureholders whose name appear on the list of Beneficial Owners given by Depository to SBICPSL whose names are registered on the register maintained by the Registrar as on the Record Date.

Interest shall be paid to the person whose name appears as sole/first in the Register of Debentureholders/beneficiaries' position of the Depositories on Record Date or to the Debentureholders who have converted the Debentures to physical form and their name is registered on the registers maintained by Company/Registrar. In the event of SBICPSL not receiving any notice of transfer at least 15 days before the respective due date of payment of interest and at least 15 days prior to the maturity date, the transferees for the Debenture shall not have any claim against SBICPSL in respect of interest so paid to the registered Debentureholder.

Deduction of Tax at Source

Tax as applicable under the IT Act, or any other statutory modification or re-enactment thereof will be deducted at source. The investor(s) desirous of claiming exemption from deduction of income tax at source on the interest on Application money are required to submit the necessary certificate(s), in duplicate, along with the Application Form in terms of Income Tax rules.

Interest payable subsequent to the Deemed Date of Allotment of Debentures will be treated as "Interest on Securities" as per Income Tax Rules. Debentureholders desirous of claiming exemption from deduction of income tax at source on the interest payable on Debentures should submit tax exemption certificate/ document, under Section 193 of the Income Tax Act, 1961, if any, at the corporate office of SBICPSL, at least 45 days before the payment becoming due.

Regarding deduction of tax at source and the requisite declaration forms to be submitted, prospective investors are advised to consult their own tax consultant(s).

Redemption

The face value of the Debentures will be redeemed at par, on the expiry of the tenor of the Debentures series as per details in the summary term sheet from the Deemed Date of Allotment. The Debentures will not carry any obligation, for interest or otherwise, after the date of redemption. The Debentures shall be taken as discharged on payment of the redemption amount by SBICPSL on maturity to the registered Debenture holders whose names appear in the Register of Debenture holders on the Record Date/ or the beneficial owners as per the list provided by the Depositories. Such payment will be a legal discharge of the liability of the Company towards the Debenture holders.

In case if the redemption date falls on a day which is not a Business Day, then the payment due shall be made on the previous Business Day but without liability for making payment of interest after actual date of redemption. It is clarified that Interest/redemption with respect to debentures, interest/redemption payments shall be made only on the days when the money market is functioning in Mumbai.

Settlement/ Payment on Redemption

Payment on redemption will be made by way of cheque(s)/ redemption warrants(s)/ demand draft(s)/ CREDIT through RTGS system in the name of the Debenture holders whose name appear on the list of Beneficial Owners given by Depository to SBICPSL and whose names are registered on the register maintained by the Registrar as on the Record Date. The credit will be made in the bank account linked to the depository account only.

The Debentures shall be taken as discharged on payment of the redemption amount by SBICPSL on maturity to the list of Debenture holders as provided by NSDL/ CDSL/ Depository Participant. Such payment will be a legal discharge of the liability of SBICPSL towards the Debenture holders. On such payment being made, SBICPSL shall inform NSDL/ CDSL/ Depository Participant and accordingly the account of the Debenture holders with NSDL/ CDSL/ Depository

Participant shall be adjusted.

SBICPSL's liability to the Debenture holders towards all their rights including for payment or otherwise shall cease and stand extinguished from the due date of redemption in all events. Further SBICPSL will not be liable to pay any interest or compensation from the date of redemption. On crediting the amount to the Beneficiary(s) as specified above in respect of the Debentures, the liability of SBICPSL shall stand extinguished.

Right of Debenture holder(s)

Debenture holder is not a shareholder. The Debenture holders will not be entitled to any other rights and privilege of shareholders other than those available to them under statutory requirements. The Debenture(s) shall not confer upon the holders the right to receive notice, or to attend and vote at the General Meeting of the Company. The principal amount and interest on the Debentures will be paid to the registered Debenture holders only, and in case of Joint holders, to the one whose name stands first.

Besides the above, the Debentures shall be subject to the provisions of the Companies Act, 2013, the relevant rules and regulations, the Articles of Association of SBICPSL, the terms of this issue of Debentures and the other terms and conditions as may be incorporated in the Debenture Trustee Agreement and other documents that may be executed in respect of these Debentures.

Effect of Holidays

'Business day' shall be the day on which money markets is functioning in Mumbai. If the interest payment date / redemption doesn't fall on a business day, then payment of interest / principal amount shall be made in accordance with SEBI circular no. CIR/IMD/DF-1/122/2016 dated November 11, 2016 as amended from time to time.

If the interest payment day doesn't fall on a business day, the payment of interest up to original scheduled date, will be made on the following working day, however the dates of the future coupon payments would be as per the schedule originally stipulated at the time of issuing the security.

If the Redemption Date (also being the last Coupon Payment Date) of the Debentures falls on a day that is not a Business Day, the redemption proceeds shall be paid by the Issuer on the immediately preceding Business Day along with interest accrued on the Debentures until but excluding the date of such payment.

It is clarified that Interest/redemption with respect to debentures, interest/redemption payments shall be made only on the days when the money market is functioning in Mumbai.

If the Record Date falls on a day which is not a Business Day, the immediately succeeding Business Day will be considered as the Record Date.

List of Beneficial Owners

SBICPSL shall request the Depository to provide a list of Beneficial Owners as at the end of the Record Date. This shall be the list, which shall be considered for payment of interest or repayment of principal amount, as the case may be.

Succession

In the event of the demise of the sole/first holder of the Debenture(s) or the last survivor, in case of joint holders for the time being, SBICPSL will recognize the executor or administrator of the deceased Debenture holder, or the holder of succession certificate or other legal representative as having title to the Debenture(s). SBICPSL shall not be bound to recognize such executor or administrator, unless such executor or administrator obtains probate, wherever it is necessary, or letter of administration or such holder is the holder of succession certificate or other legal representation, as the case may be, from a Court in India having jurisdiction over the matter. SBICPSL may, in its absolute discretion, where it thinks fit, dispense with production of probate or letter of administration or succession certificate or other legal representation, in order to recognize such holder as being entitled to the Debenture(s) standing in the name of the deceased Debenture holder on production of sufficient documentary proof or indemnity.

Where a non-resident Indian becomes entitled to the Debentures by way of succession, the following steps have to be complied:

- a. Documentary evidence to be submitted to the Legacy Cell of the RBI to the effect that the Debenture was acquired by the NRI as part of the legacy left by the deceased holder.
- b. Proof that the NRI is an Indian National or is of Indian origin.

Such holding by the NRI will be on a non-repatriation basis.

Application Forms without this information will be considered incomplete and are liable to be rejected. All Applicants are requested to tick the relevant column "Category of Investor" in the Application Form. Public/ Private/ Religious/ Charitable Trusts, Provident Funds and Other Superannuation Trusts and other investors requiring "approved security" status for making investments.

Basis of Allocation

Beginning from the issue opening date and until the day immediately prior to the Issue closing date, firm allotment against valid applications for the Debentures will be made to applicants in accordance with applicable SEBI regulations, operational guidelines of the Exchanges and all applicable laws. At its sole discretion, the Issuer shall decide the amount of over subscription to be retained over and above the base Issue size (in case of green shoe option available, if any).

According to the SEBI circular SEBI/HO/DDHS/CIR/P/2018/122 dated August 16, 2018 allotment to the bidders on EBP shall be done on the basis of "Yield-time priority". Thus, allotment shall be done first on "yield priority" basis, however, where two or more bids are at the same yield, then the allotment shall be done on "time -priority" basis. Further, if two or more bids have the same yield and time, then allotment shall be done on "pro-rata" basis.

If the proportionate allotment of Debentures to such applicants is not a minimum of one Debenture or in multiples of one Debenture (which is the market lot), the decimal would be rounded off to the next higher whole number if that decimal is 0.5 or higher and to the next lower whole number if the decimal is lower than 0.5. All successful applicants on the Issue closing date would be allotted the number of Debentures arrived at after such rounding off.

Right to Accept or Reject Applications

The Issuer reserves its full, unqualified and absolute right to accept or reject any Application, in part or in full, without assigning any reason thereof. The rejected applicants will be intimated along with the refund if applicable, sent. The Application forms that are not complete in all respects are liable to be rejected and will not be paid any interest on the Application money. Application would be liable to be rejected on one or more technical grounds, including but not restricted to:

- (i) Number of Debentures applied for is less than the minimum application size;
- (ii) Applications exceeding the issue size;
- (iii) Debenture holder account details not given;
- (iv) Details for issue of Debentures in dematerialized form not given; PAN/GIR and IT Circle/Ward/District not given;
- (v) In case of Applications under power of attorney by limited companies, corporate bodies, trusts, etc., if relevant documents not submitted;

In the event, if any Debenture(s) applied for is/are not allotted in full, the excess application monies of such Debentures will be refunded, as may be permitted.

Provisional or Final Allocation

Allocation shall be made on a pro rata basis in the multiples of the bidding lot size, i.e., in multiples of Rs. 10 (ten) Lakh with minimum allotment of Rs 1 (one) Crore. Post completion of bidding process, the Issuer will upload the provisional allocation on the NSE Bond EBP Platform. Post receipt of Investor details, the Issuer will upload the final allocation file on the NSE Bond EBP Platform.

Terms of Payment

The full-face value of the Debentures applied for is to be paid along with the Application Form as set out above.

Settlement Process

SECTION XIII

MATERIAL EVENT, DEVELOPMENT OR CHANGE AT THE TIME OF ISSUE

1. SBI Business Process Management Services Private Limited (SBIBPMSL) amalgamated with the Company, effective April 1, 2018 in line with the Order passed by the Hon'ble National Company Law Tribunal ("NCLT"), dated June 4, 2019. SBIBPMSL was predominantly acting as a captive unit handling business processes of the Company. Upon amalgamation the entire business, including all assets and liabilities of SBIBPMSL stand transferred to and vested in SBICPSL. The assets and liabilities of the combining entities are reflected at their carrying amounts. No adjustments are made to reflect fair values or recognize any new assets or liabilities. The only adjustments were made to harmonize accounting policies.
2. The Deputy Director of Employee State Insurance Corporation ("ESIC") passed an order (the "Impugned Order") dated April 24, 2019, against our Company under the Employee State Insurance Act, 1948, based on an inspection report prepared by the ESIC inspectors after undertaking an inspection at our Corporate Office. Our Company was thereby directed to pay ₹ 32.73 million as a contribution to the ESIC, for the Fiscal 2015, as a principal employer under the ESI Act within a period of 60 days from the date of the Impugned Order. Our Company filed an appeal before the Appellate Authority, ESIC ("Appellate Authority") against the Impugned Order. Pursuant to the appeal filed our Company was given an opportunity to be heard personally by the Appellate Authority. Further, the Company made the final submissions to the Appellate Authority wherein a hearing was conducted, and the order has been passed on November 15, 2019 (the "Second Impugned Order") whereby the earlier amount has been reduced to ₹ 25.32 million vide the Second Impugned Order. Subsequently, our Company filed a petition dated December 17, 2019 before the Employees' Insurance Court ("E.I. Court") seeking a stay, amongst others, quashing of the Second Impugned Order. The E.I. Court passed an order dated December 20, 2019 restraining ESIC from effecting recovery of the remaining amount till further orders. The matter is currently pending before the E.I. Court.
3. The shareholders of the Company in the meeting held on August 2, 2019 approved the resolution to convert the Company from 'private limited company' to 'public limited company'. ROC of Delhi issued a fresh certificate of incorporation upon conversion of Company from Private Company to Public Company dated August 20, 2019 and consequently, name of the Company changed to SBI Cards and Payment Services Limited. CIN of the Company has been also changed from 'U65999DL1998PTC093849' to 'L65999DL1998PLC093849'.
4. The Pursuant to the prospectus dated March 06, 2020 filed by the Company with the Registrar of Companies, National Capital Territory of Delhi and Haryana at New Delhi on March 06, 2020 for the proposed IPO, the equity shares of the Company had been listed to the stock exchanges i.e. NSE and BSE on March 16, 2020
5. The impact of COVID-19 has led to significant volatility in global and Indian financial markets, which may persist even after restrictions related to the pandemic outbreak are lifted. While there have been some improvements in economic activities in the current quarter, the continued slowdown has impacted new credit card originations, use of credit cards by customers and the efficiency in collection efforts.

Further, in accordance with RBI circulars dated March 27, 2020, April 17, 2020 and May 23, 2020 with regard to providing relief to borrowers on account of COVID-19 pandemic, SBI Card has offered moratorium on credit card dues to eligible borrowers till August 31, 2020 in accordance with Board approved policy.

Thereafter, as per RBI circular dated August 6, 2020 with regard to resolution framework on COVID19 related stress and as per Board approved policy, Company has allowed one time resolution to eligible customers by offering them an option of converting credit card dues into EMIs of upto 24 months. As of September 30, 2020, Company has converted balance of Rs 2,108.03 lakhs into EMI under this scheme and is carrying 10% provision against such balance as per extant RBI circular. The Company also holds additional provision as management overlay as at September 30, 2020 against the potential impact of COVID -19 based on the information available at this point in time.

The impact of COVID-19 remains uncertain and may be different from what we have estimated as of the date of approval of these Condensed Interim Financial Statements and the Company will continue to closely monitor any material changes in future economic conditions

6. The Company uploads the detailed updates on Coronavirus impact with Stock exchanges and on company's website www.sbicard.com from to time.

Other than the CREDIT ratings mentioned hereinabove, SBICPSL has not sought any other CREDIT rating from any other CREDIT rating agency(ies) for the Debentures offered for subscription under the terms of this Private Placement Offer Letter.

The above ratings are not a recommendation to buy, sell or hold securities and investors should take their own decision. The ratings may be subject to revision or withdrawal at any time by the assigning rating agencies and each rating should be evaluated independently of any other rating. The ratings obtained are subject to revision at any point of time in the future. The rating agencies have the right to suspend, withdraw the rating at any time on the basis of new information etc.

SECTION XV
NAME OF DEBENTURE TRUSTEE

In accordance with the provisions of Section 71 of the Companies Act, 2013, Companies (Share Capital and Debentures) Rules 2014 and Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993, SBICPSL has appointed Axis Trustee Services Limited to act as Debenture Trustee ("**Debenture Trustee**") for and on behalf of the holder(s) of the Debentures. The address and contact details of the Trustees are as under:

2nd Floor – E, Axis House,
Bombay Dyeing Mills Compound,
Pandurang Budhkar Marg,
Worli, Mumbai – 400 025

A copy of letter dated December 17, 2020 from Axis Trustee Services Limited conveying their consent to act as Debenture Trustee for the current issue of Debentures is enclosed elsewhere in this Private Placement Offer Letter.

SBICPSL hereby undertakes that the rights of the Debenture holders will be protected as per the agreement/deed executed/to be executed between SBICPSL and the Debenture Trustee. The Debenture Trustee Agreement/Deed shall contain such clauses as may be prescribed under Section 71 of the Companies Act, 2013, Companies (Share Capital and Debentures) Rules, 2014 and those mentioned in Schedule IV of the Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993. Further the Debenture Trustee Agreement/Deed shall not contain any clause which has the effect of (i) limiting or extinguishing the obligations and liabilities of the Debenture Trustee or SBICPSL in relation to any rights or interests of the holder(s) of the Debentures; (ii) limiting or restricting or waiving the provisions of the SEBI Act; SEBI Debt Regulations and circulars or guidelines issued by SEBI; and (iii) indemnifying the Trustees or SBICPSL for loss or damage caused by their act of negligence or commission or omission.

The Debenture holder(s) shall, without further act or deed, be deemed to have irrevocably given their consent to the Debenture Trustee or any of their agents or authorized officials to do all such acts, deeds, matters and things in respect of or relating to the Debentures as the Debenture Trustee may in their absolute discretion deem necessary or require to be done in the interest of the holder(s) of the Debentures. Any payment made by SBICPSL to the Debenture Trustee on behalf of the Debentureholder(s) shall discharge SBICPSL *protanto* to the Debenture holder(s). The Debenture Trustee shall protect the interest of the Debenture holders in the event of default by SBICPSL in regard to timely payment of interest and repayment of principal and shall take necessary action at the cost of SBICPSL. No Debenture holder shall be entitled to proceed directly against SBICPSL unless the Debenture Trustee, having become so bound to proceed, fail to do so. In the event of SBICPSL defaulting in payment of interest on Debentures or redemption thereof, any distribution of dividend by SBICPSL shall require approval of the Debenture Trustee.

SECTION XVI

STOCK EXCHANGE WHERE SECURITIES ARE PROPOSED TO BE LISTED

The Fixed rate Unsecured, Rated, Taxable, Redeemable, Senior, Non-convertible Debentures ("Debentures") (Series 22) are proposed to be listed on the Wholesale Debt Market (WDM) Segment of the BSE. The Company has obtained the in-principle approval of BSE for listing of the Debentures. SBICPSL shall make an application to the BSE to list the Debentures to be issued and allotted under this Private Placement Offer Letter and complete all the formalities relating to listing of the Debentures within stipulated time (as per applicable law) from the date of closure of the Issue. If the permission to list and trade the Debentures is not granted by the stock exchange, our Company shall forthwith repay, without interest, all such moneys received from the Applicant in pursuance of this Private Placement Offer Letter, Section 42 of the Companies Act, 2013 and other applicable provisions of the law. If default is made, our Company and every officer in default will be liable to fine as prescribed in Section 42 of the Companies Act, 2013 and other applicable provisions of the law.

In connection with listing of Debentures with BSE, SBICPSL hereby undertakes that:

- It shall comply with conditions of listing of Debentures as may be specified in the Listing Agreement with BSE.
- Ratings obtained by SBICPSL shall be periodically reviewed by the CREDIT rating agencies and any revision in the rating shall be promptly disclosed by SBICPSL to BSE.
- Any change in rating shall be promptly disseminated to the holder(s) of the Debentures in such manner as BSE may determine from time to time.
- SBICPSL, the Debenture Trustee and BSE shall disseminate all information and reports on Debentures including compliance reports filed by SBICPSL and the Trustees regarding the Debentures to the holder(s) of Debentures and the general public by placing them on their websites.
- Debenture Trustee shall disclose the information to the holder(s) of the Debentures and the general public by issuing a press release in any of the following events:
 - (i) default by SBICPSL to pay interest on Debentures or redemption amount;
 - (ii) revision of rating assigned to the Debentures;
- The information referred to in para above shall also be placed on the websites of the Trustees, SBICPSL, and BSE.

SECTION XIX SERVICING BEHAVIOUR ON EXISTING DEBT SECURITIES AND OTHER BORROWINGS

SBICPSL hereby confirms that:

- a) The main constituents of SBICPSL's borrowings have been in the form of borrowings from Banks and Financial Institutions, Debentures, CP etc.
- b) SBICPSL has been servicing all its principal and interest liabilities on time and there has been no instance of delay or default since inception.
- c) SBICPSL has neither defaulted in repayment/ redemption of any of its borrowings nor effected any kind of roll over against any of its borrowings in the past.

SECTION XX

UNDERTAKING REGARDING COMMON FORM OF TRANSFER

The Debentures shall be transferred subject to and in accordance with the rules/ procedures as prescribed by the NSDL/CDSL/Depository Participant of the transferor/ transferee and any other applicable laws and rules notified in respect thereof. The normal procedure followed for transfer of securities held in dematerialized form shall be followed for transfer of these Debentures held in electronic form. The seller should give delivery instructions containing details of the buyer's DP account to his depository participant. The transferee(s) should ensure that the transfer formalities are completed prior to the Record Date. In the absence of the same, interest will be paid/ redemption will be made to the person, whose name appears in the records of the Depository. In such cases, claims, if any, by the transferee(s) would need to be settled with the transferor(s) and not with SBICPSL.

SECTION XXI
