In any case it should be noted that following writing-off of the Bonds and claims and demands as noted above neither the Bank, nor any other person on the Bank's behalf shall be required to compensate or provide any relief, whether absolutely or contingently, to the Bondholder or any other person claiming for or on behalf of or through such holder and all claims and demands of such persons, whether under law, contract or equity, shall stand permanently and irrevocably extinguished and terminated.</p> <p>Unless otherwise specified in this Placement Memorandum, the write-off of any common equity or any other regulatory capital (as understood in terms of the aforesaid circular or any replacement/amendment thereof), whether senior or pari passu or subordinate, and whether Additional Tier 1 capital or Tier 2 capital or otherwise shall not be required before the write-off of any of the Bonds and there is no right available to the Bondholder hereof or any other person claiming for or on behalf of or through such holder to demand or seek that any other regulatory capital be subject to prior or simultaneous write-off or that the treatment offered to holders of such other regulatory capital be also offered to the Bondholders.</p>
Write-down on Point of Non-Viability ("PONV") Trigger	The Bonds are issued subject to Basel III Guidelines on PONV as amended from time to time (including all claims, demands on the Bonds and interest thereon, whether accrued or contingent),

and at the option of the RBI, can be permanently written down upon the occurrence of the trigger event, called "Point of Non-Viability Trigger" ("**PONV Trigger**").

The PONV Trigger event is the earlier of:

- a. a decision that a permanent write-off without which the Bank would become non-viable, is necessary, as determined by the Reserve Bank of India; and
- b. the decision to make a public sector injection of capital, or equivalent support, without which the Bank would have become non-viable, as determined by the relevant authority.

The amount of non-equity capital to be written-off will be determined by RBI.

When the Bank breaches a PONV Trigger Level and the equity is replenished through write-down, such replenished amount of equity will be excluded from the total equity of the Bank for the purpose of determining the proportion of earnings to be paid out as dividend in terms of rules laid down for maintaining capital conservation buffer. However, once the Bank has attained total common equity ratio of 8% without counting the replenished equity capital that point onwards, the Bank may include the replenished equity capital for all purposes.

The write-off of any Common Equity Tier 1 capital shall not be required before the write-off of any Non-equity (Additional Tier 1 and Tier 2) regulatory capital instrument. The order of write-off of the Bonds shall be as specified in the order of seniority as per this Placement Memorandum and any other regulatory norms as may be stipulated by the RBI from time to time.

The Bonds can be written-down multiple times in case the Bank hits the PONV Trigger Level subsequent to the first write-down. The Bonds which has been written off shall not be written up.

Such a decision would invariably imply that the write-off consequent upon the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. The Bondholders shall not have any residual claims on the Bank (including any claims which are senior to ordinary shares of the Bank), following any trigger event.

In any case it should be noted that following writing-off of the Bonds and claims and demands as noted above neither the Bank, nor any other person on the Bank's behalf shall be required to compensate or provide any relief, whether absolutely or contingently, to the Bondholder or any other person claiming for or on behalf of or through such holder and all claims and

	<p>demands of such persons, whether under law, contract or equity, shall stand permanently and irrevocably extinguished and terminated. Unless otherwise specified in this Placement Memorandum, the write-off of any common equity or any other regulatory capital (as understood in terms of the aforesaid circular or any replacement/amendment thereof), whether senior or <i>pari passu</i> or subordinate, and whether an Additional Tier 1 capital or Tier 2 capital or otherwise shall not be required before the write-off of any of the Bonds and there is no right available to the Bondholder hereof or any other person claiming for or on behalf of or through such holder to demand or seek that any other regulatory capital be subject to prior or simultaneous write-off or that the treatment offered to holders of such other regulatory capital be also offered to the Bondholders.</p> <p>For these purposes, the Bank may be considered as non-viable if:</p> <p>The Bank which, owing to its financial and other difficulties, may no longer remain a going concern on its own in the opinion of the RBI unless appropriate measures are taken to revive its operations and thus, enable it to continue as a going concern. The difficulties faced by the Bank should be such that these are likely to result in financial losses and raising the Common Equity Tier 1 capital of the Bank should be considered as the most appropriate way to prevent the Bank from turning non-viable. Such measures would include write-off / conversion of non-equity regulatory capital into common shares in combination with or without other measures as considered appropriate by the RBI.</p>
	<p>The Bank facing financial difficulties and approaching a PONV will be deemed to achieve viability if within a reasonable time in the opinion of RBI, it will be able to come out of the present difficulties if appropriate measures are taken to revive it. The measures including augmentation of equity capital through write off of Bonds/ public sector injection of funds are likely to:</p> <ol style="list-style-type: none"> <li>Restore depositors'/investors' confidence;</li> <li>Improve rating /creditworthiness of the Bank and thereby improve its borrowing capacity and liquidity and reduce cost of funds; and</li> <li>Augment the resource base to fund balance sheet growth in the case of fresh injection of funds.</li> </ol> <p>The trigger at PONV will be evaluated both at consolidated and solo level and breach at either level will trigger write-off.</p>
Other Events	<p><i>Treatment of Bonds in the event of Winding-Up:</i></p> <p>Subject to the provisions of The State Bank of India Act, 1955 as amended from time to time</p>
